HOW ALASKA SCOUTS

To be apportioned \$12,000 in a Liberty loan campaign and to wind up the drive with \$67,000 is a pretty big Yet there's a scout troop which did this very thing. Up in Fairbanks, Alaska, it wasn't pleasant weather when the last Liberty loan campaign began. Trails were almost impassable, and driving storms and bitter winds came every day.

But the troop in Fuirbanks came forward 100 per cent strong. There were 35 boys in Troop No. 1 and their apportionment for the campaign was first put at \$12,000. A huge clock was made to indicate their progress.

But on the very first day they "busted" the clock, for they obtained subscriptions amounting to more than double that amount. Then the clock was put at \$30,000. Local Liberty Ioan officials were positive the troop could go no farther by hook or crook. But the end of the campaign saw them, not at \$30,000 but at \$67,100, which represented half the total subscriptions obtnined in the whole district. And it was really \$69,100, if we count a \$2,000 subscription one man asked to be allowed to make in recognition of their

BEAUTY OF SCOUT SCHEME.

The wider your range of interest the greater is your capability for enjoyment, says Scout Commissioner Dan

Put in another way, the more things that interest you the more fun you have. And to that may be added, the more things you enjoy the more alive you are.

If a fellow loves woodcraft, athletics, sailing, canoeing, natural his tory, botany, fresh air, mountains and streams, he is alive to all these things and he has more sources for fun, en joyment or pleasure than other fel

Now, then, the beauty of the scoul cheme is that a "regular feller" among the scouts is a live wire and can have n good time wherever you place him. it, for instance, is the reason the old scouts of the Camp Fire Club of erica enjoy themselves so much and have such bully times.

ROOSEVELT TO THE SCOUTS.

The boy scout movement is distinctly an asset to our country for the development of efficiency, virility and good citizenship, says Colonel Roose

It is essential that its leaders be men of strong, wholesome character, of unmistakable devotion to our country, its customs and ideals, as well as in soul and by law citizens thereof. whose whole-hearted loyalty is given to this nation and to this nation

Do You Think There is No Competition?

If anyone thinks there is no competition amongst the big packers he ought to go through a day's work with Swift & Company.

Let him begin at the pens when the live stock comes in; let him try to buy a nice bunch of fat steers quietly and at his own price without somebody's bidding against him.

Let him realize the scrupulous care taken at the plant that not one thing is lost or wasted in order that costs may be held to a minimum. Let him go up into the office where market

reports are coming in,-and reports of what other concerns are doing. Let him watch the director of the Swift Refrig-

erator fleet, maneuvering it over the face of the country like a fleet of battleships at sea. Let him take a trip with a Swift & Company

salesman and try to sell a few orders of meat. Let him stay at a branch house for an hour or two and see the retail meat dealers drive their bargains to the last penny as they shop around

among the packers' branch houses, the wholesale dealers, and the local packing plants. And then, when the day is over, let him have haif an hour in the accounting department, where he can see for himself on what small profits the business is done. (Less than 4 cents on each dollar

If he still thinks there is no competition in the meat business it will be because he wants to think so.
